

The Floral Collection
Artificial Flower Range

ambius
The Experts in Workspace
Plant Design

The Ambius artificial flower range is a cost effective alternative to Fresh Flowers for corporate clients. Fresh flowers can be very expensive, especially if you have a weekly change. By having fewer changes throughout the year you can make significant savings each month.

Our florists can create life-like arrangements ideal for any space that won't wilt, or die, and look just like the real thing, even at the touch, by using some of the very best life-like flowers on the market.

Ambius offers periodic changes of our faux flower range to suit you, whether that's 4 times a year or monthly.

It's simple to do. Contact us, tell us which of the 4 ranges you like then leave it to our florists to deliver one of the stunning displays in your chosen range.

Bud Bowls & Vases

Ideal for restaurant tables, small coffee tables or side tables. Our Bud Bowls & Vases add that little extra colour where you need.
